

NEW MCH STUDENT GROUP!

We're excited to announce a new student group on campus, the **Maternal and Child Health Interest Group (MCHIG)**!

MCHIG was created for students to have a space to discuss MCH related topics, issues, and ideas. Any UMN student with an interest in MCH is welcome to join!

As a group, we hope to be engaged with the community through campus events and community service. There will be monthly meetings, with the dates/times TBD after we have accounted for most of the members.

If you're interested in joining the student group or have any questions, please email us at mch@umn.edu.
